

AGA MOREE – Alexander Byrne

2nd November 2009

Alexander Byrne has commenced work with AGA New South Wales as a Graduate Field Merchant based in Moree.

Alex grew up on a mixed sheep and cropping farm at Maroona in the Western District of Victoria. This is where his keen interest in agriculture was formed. Alex has also been actively involved in the family farming operation.

Alex recently completed an Agricultural Science/ Business degree at La Trobe University in Victoria. He completed an Honours thesis on Producer Hedging Strategies for Milling Wheat. Alex has worked in other agricultural fields including operating seed graders and harvesters, in grain storage and also working with sheep and wool.

He has made the move north to the rich agricultural area of Moree just in time for the harvest season. Outside of this new role Alex plans to get into some fishing and also enjoys playing tennis, gardening and spectating of various sports.

AGA WELCOMES ALEXANDER BYRNE TO THE TEAM.
